

# Your Money Values & Influences

## What are Values?

Your **values** are the people, things, and places that are important to you and guide how you make decisions.

You need to align your behaviors with your values. Sometimes your values might conflict with others' values. Understanding your core values can help you:

- Set realistic goals
- Make spending decisions that will help you meet your goals

## Goals and Money

What kind of future do you want? Goals are your desired results. Developing a plan will help you visualize how you can reach your goals.

Setting goals helps you prioritize how you use your money, so it goes toward what matters to you. Setting goals can also help you measure and track your progress toward achieving your hopes and dreams.

Use the acronym S.M.A.R.T. to remember that goals should be: Specific, Measurable, Action-oriented, Reachable, and Time-bound.

To ensure your goals are.....	Ask Yourself
<b>S</b> pecific	What exactly do I want to accomplish? Why is this important to me? Is this something I really want?
<b>M</b> easurable	How much? How many? How will I know when I have met my goal?
<b>A</b> ction-Oriented	What specific actions do I need to complete this goal?
<b>R</b> eachable	Is this goal something I can reach?
<b>T</b> ime-bound	When will I reach this goal?

## External Influences

Messages about money can be so widespread you do not even realize they are influencing your decisions. Most people are influenced in some way. Influences can be productive or unproductive.

On the next page are some strategies for staying focused on your goals by blocking unproductive messages and resisting impulse spending.

- ✓ **Recognize the Tactics Used to Influence You to Spend Money.** Advertisers and influencers are purposefully trying to get you to spend more money than you've planned.
- ✓ **Notice When and Where You're Tempted.** Start paying attention to when and where you feel like making an impulse purchase. Once you've spent some time noticing what triggers your spending, see if you can identify patterns.
- ✓ **Set Yourself Up for Success by Controlling Your Environment.** It helps to avoid temptation altogether when possible.
- ✓ **Build in a Pause.** You may be tempted to spend money on something you don't really need. Force yourself to pause so you can be sure it's not just an impulse.
- ✓ **Talk Yourself Out of It.** When you're tempted to make a purchase that isn't in your spending and saving plan, try asking yourself: Is this a want or a need? Does it help me reach my goals? Is this in my spending and saving plan? Can I plan for this expense by creating a savings goal?
